COMFORTABLE RIDING POSITION

SEP (Suzuki Eco Performance) is a new developmental concept proposed by Suzuki. At Suzuki, we pay great attention to riding performance, and "SEP" stands for our next-generation engine that offers both low fuel consumption and superior acceleration.

The Intruder comes with an advanced fuel injection technology equipped with 6 sensors to calculate the optimum amount of fuel to be injected for better combustion efficiency, thereby improving fuel efficiency and providing accurate throttle response at all rpm to make your every ride even more exciting.

ABS** (Anti-lock Brake System), a supplemental system, which automatically controls the braking force efficiently & avoids wheel lock up due to slippery road, sudden change of road conditions or excessive braking in a certain controllable range. Please do not overly rely on ABS.
